"We ought not to allow the enemy to prevent
us from carrying on all those things which
will make life better later on."

---Mrs. Winston Churchill.

Our Fine Evergreen

Evergreens have always been one of our specialties. The quality of our soil permits digging with a solid ball of earth and frequent transplanting or rootpruning develops a fine root-system, which is so essential to the successful transplanting of Evergreens.

All plants listed will be supplied with Ball of Earth (B&B).

ABIES (Fir)

GARDENING BOOKS

We shall be glad to advise you on the best gardening books on subjects you are interested in and can furnish any book in the gardening line.

EVERGREENS (Continued)

TAXUS (Yew)

Almost two decades ago, when the Yew was hardly used in the Middle West, we made plantings of this valuable evergreen, convinced as we were that it would become the leading evergreen in the Middle West if not in the entire North. Constant trials gave us a thorough knowledge of this plant in midwest conditions and we now possess one of the finest collections of *Taxus*. *Taxus* will grow under almost all conditions, and especially in shade. While most evergreens prefer sun, *Taxus* will do in dense shade and stands city conditions better than any evergreen we know of. It also makes a beautiful hedge and can be trimmed in almost any form. *Taxus* like a rich loam, if stiff clay it is advisable to add peatmoss or sand. A good helping of rotted cow manure or Driconure mixed with the soil around the plant is very beneficial.

WEIGELA rosea 3-4 ft.65	.55

OUR
"STARTED"
GARDEN ROSES

A PLAN ORIGINATED FOR
 YOUR CONVENIENCE
 AND PLEASURE.

Two year old No. 1 Northern Grown Roses, started during winter months in large six inch pots. By the time you get them (from May 1st on) they are thoroughly rooted and often already budded. You tip them out of the pot and plant them in your garden for **immediate results**. No fatalities in these "started" roses.

Our roses are almost a season ahead of ordinary dormant plants and besides you can plant them anytime you please. However, it is well to place your order as soon as possible.

NEWEST AND FINEST STANDARD VARIETIES.

We admit that we are fond of roses and that we take a great deal of pride in our assortment. We try out all promising introductions and if suitable to this climate and of outstanding value, we offer them to you.

ASK FOR OUR SPECIAL ROSE FOLDER
 Illustrated in Color

"GARDENING . . .

which inspires the purest and most refined pleasures cannot fail to promote every good affection. The gaiety and harmony of mind it produces, inspiring the spectator to communicate his satisfaction to others, and to make them as happy as he is himself, tend naturally to establish in him a habit of humanity and benevolence."—LORD KAIMES.

4-5 ft. 2.00 1.85

WOLFI, Lilac color; specie hybrid.

2-3 ft. 1.50

3-4 ft. 1.75

ROSE-FLOWERING CHERRIES

Our Rose Flowering Cherries have proven perfectly hardy almost anywhere in the Middle West. We started growing this marvelous ornamental plant well over ten years ago and have never had the least bit of winter damage in the varieties we offer. We graft our own plants from mother plants raised in our nurseries and every year our Flowering Cherries are a sight to behold. You can have in your own garden as fine an array of bloom as the cherries along the mall in Washington.

Flowering Cherries do well in any well-drained soil.

If plants are desired with ball of earth, please see B & B Schedule in back of catalog.

AMANOGAWA, Slim upright, light pink, semi-double flowers.

Each 10 Rate

WATERLILIES

And Other Aquatic Material

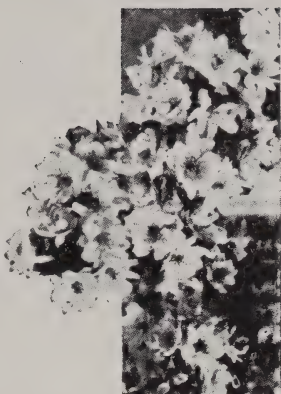

We can furnish many varieties of Waterlilies and other aquatics for your pool. Please order early.

IMPORTED HOLLAND BULBS FOR FALL PLANTING

We hope to be able to import genuine Holland Bulbs again in the near future. In the meantime, we have been getting some rather satisfactory bulbs from England and also offer Narcissi and other bulbs from domestic sources.

CHINESE FLOWERING CRABAPPLES

These graceful plants add a profusion of color to the garden in spring, and brighten the fall picture with brilliantly colored fruit in shades of green, yellow, orange, scarlet, maroon and crimson.

We grow most of our flowering crabs in bushform; if desirable this form can later be pruned to form picturesque tree shape.

ARNOLDIANA (Arnold Crab), Blossoms pink; fruit yellow.

	Each	10 Rate
3-4 ft.	1.25	1.15

ILLUSTRATED GARDEN TALKS

We have available interesting color slides on several subjects for lectures before garden clubs and other groups. Write for further information.

GENERAL INFORMATION

PRICES in this list cancel all previous listings, and are subject to change without notice. Michigan State Sales Tax is to be added to orders from within the State.

HARDINESS OF STOCK. Grown in the heart of Michigan, our materials are extremely hardy.

STATE INSPECTED. Our nurseries are certified by the State of Michigan to be free from dangerous insects and dangerously contagious tree and plant diseases.

TERMS. Cash, unless other written arrangements are made at time of acceptance of order. Customers with established credit: 30 days net.

CLAIMS. When stock is not delivered by our truck, our responsibility ceases upon delivery of stock in good condition to transportation company. Claims for damage while stock is in transit should be made promptly to the transportation company.

GUARANTEE. Stock planted and supplied by us will be replaced free of charge if dead from natural causes before August 1st after the previous fall or spring of planting, provided the materials have received normal care, and provided payments have been made as arranged. Due to the labor scarcity, we must charge for labor of planting replacements. Shade Trees planted with frozen ball of earth and planted by us will, in case of death before August 1st after planting, be replaced at half prevailing price. Stock NOT planted by us will be replaced at half prevailing price, if dead, as above described, before August 1st after previous fall or spring deliveries, and also provided payment of materials has been made in full. This guarantee excludes fatalities from tornado, severe drought, abnormal winter or other conditions of which we have no control.

Above General Information refers only to stock sold at retail.

SUNDAYS. Closed Sundays except by appointment.

ONE VIGOROUS PLANT
that you know will thrive, and
bloom true to description, is
worth any amount of poor
plants no matter how little
you pay for them.
